- **Languages:** Java, Kotlin, HTML, CSS, JavaScript, SQL
- **Tools:** Figma, GitHub, Unit Testing, Swing, Bootstrap, IntelliJ, Visual Studio Code, Processing, Adobe Creative Suite

PERSONAL AND ACADEMIC PROJECTS

SecureHub (HTML, CSS, Bootstrap)

October 2023

- Developed a website aiming to safeguard personal privacy by raising awareness of big corporations' data collection, providing resources to mitigate cybersecurity threats, and enhancing education on data breaches within the Oakland community using HTML, CSS, and framework Bootstrap for the Start Summit hackathon which won second place.
- Worked on the front end of the website with features including a password generator for creating secure passwords, an interactive game, a statistics page with a data table of breaches from major companies, and an informational page.

Stock Market Simulation App (Java, Swing, MVC Architecture)

June 2024

- Developed a stock market simulator with real-time portfolio management using Java, Swing, and the Alphavantage API.
- Implemented buy/sell transactions, portfolio queries, and data file operations; applied the Model-View-Controller pattern and custom caching for real-time data.
- Enabled users to efficiently manage and analyze stock portfolios through a responsive graphical interface.

Personal Website (HTML, CSS, JavaScript) carolynhoa.com

September 2024

- Developed a portfolio website of coding and design projects utilizing HTML, CSS, Javascript, and VSCode.

EXPERIENCE

Girls Who Code Vice President Oakland, California

September 2023 - April 2024

- Vice President and co-founder of Girls Who Code at Northeastern's Oakland, organized weekly study sessions, social mixer events with over 100 attendees, outreached to local women in tech, including founders and VPs of tech companies through email, and wrote the questions for our Speakers Series events, and cultivated an inclusive environment for students to learn.

PawHacks Operations Team Member Oakland, California

January - March 2024

- Contributed to the successful organization and execution of PawHacks, a school hackathon event with over 100 participants.
- Assisted in writing the judging rubric, developing the event schedule, and facilitating the hackathon.

Northeastern Marketing Assistant Oakland, California

February - April 2024

- Boosted event attendance and engagement through effective marketing and promotional strategies.
- Designed eye-catching flyers with Canva, executed promotional activities such as event tabling, and supported the planning and execution of student activities contributing to multiple successful events.

Northeastern Experiential Entrepreneurship Space Design Assistant Oakland, California

January - April 2024

- Designed a space for entrepreneurs to use on Northeastern's Oakland campus using a floor plan creator and Adobe Illustrator.
- Created floor plans for four rooms within the designated space, picked out furniture, and implemented the design.
- Designed and presented a magazine showcasing the space to the head of Experiential Entrepreneurship at Northeastern.

Chipotle Crew Member San Jose, California

June - September 2023

- Delivered high-quality food service and customer interactions in a fast-paced environment.
- Assembled food orders with precise portion control, operated the cash register, and maintained a clean and organized work area while providing exceptional customer service.

Business Internship at Tehnoj Incubation Center Ulaanbaatar, Mongolia

June 2022

- Participated as an intern for Tehnoj Incubation Center, a nonprofit, non-government organization that encourages poorer communities to build their own businesses in Mongolia.
- Led a research and writing team of five people, wrote a 16-page business proposal, and provided over 100+ edits to the proposal.
